

## Advocacy Plan for 2010/2011

My goal is to put the LMC in the limelight as a place where technology is vital and is used hand in hand with other resources. I want to collaborate with the teachers to this end to integrate technology into their lessons whenever appropriate. I'm hoping to get beyond the notion that the computer lab is the place where we "do technology".

<b>Audience</b>	<b>Technology Review (highlights from the year)</b>	<b>Teach Tech Workshops</b>	<b>Showcase tech related media on school website</b>	<b>Continue to create lesson plans w/ technology components</b>
